Workers Compensation Treaty

Effective Workers Compensation reinsurance is about more than just risk transfer, it's about providing a diligent, thorough, and stable relationship that helps our clients manage their workers compensation business.

A Diligent Partner in Workers Compensation Reinsurance

At Berkley Re, our underwriting team brings decades of specialized experience and deep technical knowledge of the Workers Compensation sector. We work closely with our clients to develop tailored reinsurance solutions that support effective risk management and help clients manage their total cost of risk. By collaborating with Berkley Re, our clients gain access to deep expertise, stability, and cutting-edge analytics that help our clients reduce their net cost of claims.

Coverage Highlights

We offer specialized excess of loss treaty reinsurance for Workers Compensation which provides robust protection with a range of specialized services and a broad underwriting appetite.

Services

We offer a "Total Cost of Risk" approach to managing workers compensation risks from the ground up, leveraging our proprietary data and analytical tools. Our services include Best-in-Class Catastrophic Claims Management services including settlement consultation. We also provide access to specialty services through our collaborations with Berkley businesses like Midwest Employers Casualty (MEC), offering expert claims management and reinsurance support, and we work with you on underwriting collaboration and pricing models to help clients run their business successfully.

Capacity

We provide meaningful line sizes and are equipped to respond to various reinsurance structures. We offer a substantial capacity per occurrence for workers compensation and a meaningful capacity for employers liability. Our minimum attachment points vary based on exposure, experience, and company size.

Target companies

We underwrite for a variety of companies, with a focus on small to medium-sized regional and mutual insurance companies with strong financials and centralized underwriting.

Data requirements

We pride ourselves on our technical and diligent approach. To provide clients with the most accurate pricing and terms, we require detailed data on our clients' underwriting appetite, reinsurance structure, and company financials. This allows our relationship to be built on a solid, mutually beneficial foundation.
